Customs support in Russia

«**ATA Carnet**» (an optimum variant for equipment import into Russia)
is registered in Chamber of Commerce of the member country.

Recommendations for fast Customs registration

- ✓ Send specification (Word/Excel format) on e-mail beforehand with the description of each item of equipment, quantity, weight, price and the country of consignment;
- ✓ Photos of the tractors and ploughs and also their information code plate with their identification number;
- ✓ Send specification (Word/Excel format) on e-mail beforehand with the description of each item of equipment, quantity, weight, price and the country of origin;
- ✓ Having received the ATA Cornet in the Chamber of Commerce. It's necessary to send it immediately on e-mail (in good quality and colour) to the event arranger of the procedure for the confirmation and concurrence with the customs of the Russia;
- ✓ Before the cargo arrival at the Russian customs send by express post the original of the power of attorney of the person organizing the registration at the customs;
- ✓ All the import equipment, wear parts must be exported from the territory of the Russia with the same compounds, quantity and quality;
- ✓ Wear parts, consumables (oils ,isulating tape, carborundum wheels), e.t.c must also be exported from the territory of the Russia in the same quantity, compounds and quality as they were imported.

КИРОВЕЦ®

Customs support in Russia

«Temporary import» (more complicated variant)

supposes in advance bringing in deposit by the participant of the Championship to the customs for the imported equipment through the company importer.

Approximately 20% of the product price, without tax and banking service.

After exporting the equipment from the territory of Russia the participant is given back the deposit approximately during a month.

Recommendations for fast Customs registration

- ✓ Send beforehand specification (Word/Excel format) on e-mail with the model, the description of each item, the quality, weight (net, total weight), price and the country of origin for approval with the Customs of Russia.
- ✓ While passing through the customs the customs has to identify each imported item, that's why you should beforehand send a photo of each item, its system number, with no system number, it should be made with paint or stickers.
- ✓ Send photos of tractors and ploughs, their information code plate with their identification numbers.
- ✓ All the import equipment must be exported from the territory of the Russia with the same compounds, quantity and quality.
- ✓ Wear parts and equipment which can't be identified, are forbidden for import!!! (private things, oils, insulating tape, e.t.c).

КИРОВЕЦ®

Customs support in Russia

Organization of international transportation from the country-participant to the Championship or only across Russia from the sea port / customs terminal to Saint-Petersburg and back.

If you have to organize logistic support for the customs registration (transportation to the Championship and back), we organize international transportation and also transportation across Russia.

For the demand assignment for the international transportation

- ✓ Send on e-mail the specification with the description of the equipment.
- ✓ Packaging information (the size, total weight, net).
- ✓ Note the exact address; the contact person (name, telephone number, e-mail) places of shipment, method of shipment.
- ✓ Depending on the distance and complexity of the route this information should be sent as soon as possible before the beginning of the Championship.

For the demand assignment for the transportation across Russia

- ✓ Inform about the cargo and its data. And the necessary direction.
- ✓ After the cargo departure send on e-mail the consignment with the detailed information about the cargo.
- ✓ Contact information of the agent who organized the delivery across Russia.
